SPECIMEN ORNAMENTALS

OFFERED BY

THE ELIZABETH NURSERY CO.

ELIZABETH, N. J.

FEB 20 1923

THE largest assortment of Large Evergreens and other ornamentals in the country. If you desire to purchase stock which will produce an immediate effect on your grounds, we can supply you with just the stock for that purpose, as we have Trees, Shrubs and Evergreens which have been transplanted several times, and will save you waiting twenty years or more.

We think we can safely say that we have the largest stock of large Evergreens and Azaleas in the United States. In Evergreens can supply trees running from 10 to 20 feet high. Those desiring large Koster's Blue Spruce (the improved Colorado), the bluest of all, can find them on our grounds.

We send you this circular to show you a few photographs of our specimen Evergreens that we have growing on some of our twenty-four farms located around and near Elizabeth.

We claim to have more large Evergreens and extra large Shrubs than any other nursery in this country. Inspection invited.

Azalea Hinodigiri

Azalea Hinodigiri

The most beautiful of all Hardy Azaleas, is one of our specialties. We have the largest stock of them in the United States as well as the largest plants. We have them from \$1.50 up to \$50.00 each. This Azalea forces easily and is much sought after by the florists on account of its color. Anyone purchasing this particular variety of Azalea cannot fail to be satisfied with the brilliant color of its flowers which blends with everything. This Azalea makes one of the most beautiful hedges imaginable and if you wish to see a sight such as you have never seen before, come and see them at blooming time at our nursery. We will be glad to notify you when to see them at their

best. You can take some back home with you, if wanted, as it is perfectly safe to transplant them while in flower. The color of the flower is a striking shade of bright carmine pink, completely covering the plant so as to entirely hide the light green foliage. It is an evergreen sort.

Azalea Amœna, from which Azalea Hinodigiri is a sport, has an entirely different color, blooming however, at the same time and was sold almost entirely before Azalea Hinodigiri became so popular. We can supply plants from \$1.00 to \$50.00 each. Both kinds stand transplanting well as they lift with a large ball of earth filled with fibrous roots and can be safely shipped long distances.

THE driveway shows in the foreground some small Juniperus stricta. To the right of the first two is the Juniperus Pfitzeriana, then beyond the two small plants of Juniperus stricta along the driveway are the Table Pines from Japan and the tall trees farther along are Koster's Spruce, and down near the garage is a tall Juniperus chinensis. In fact, this group shows a number of varieties of Evergreens.

Juniperus virginiana (Red Cedar)

Juniperus virginiana

(Red Cedar)

A rapid growing, very erect, narrow Evergreen with bright rich green foliage, useful for ornamental planting. It is very suitable at gateways or at the corner of a walk near the house at sides of steps at entrance; very hardy, used extensively in formal gardens.

Small Evergreens

Small Evergreens in variety for window box work or planting out. Can also be used to great effect in the planting of rockeries or in the woods.

Large Trees

We have a quantity of large trees running from 3 to 6 in. in caliper, of the following varieties:

Norway Maple.	Silver Linden.	Horse Chestnut
Silver Maple.	Catalpa speciosa.	(White-flowering).
Schwedler Maple.	Pin Oak.	Japanese Walnut
Scarlet Maple.	English Elm.	(Bearing age).
European Linden.	English Beech.	
American Linden.	Oriental Plane.	

Vines XX Strong

Ampelopsis Veitchii.	Clematis paniculata.	Matrimony Vine.
Honeysuckle in var.	Euonymus rad. var.	Virginia Creeper.
		Wistaria.

If interested in any of the above stock, write us for prices, stating quantities wanted.

Large Evergreens

In Large Quantities

Norway Spruce. 8 to 15 ft.	Retinispora filifera. 8 to 9 ft. through, 10 to 11 ft. high.
Koster Blue Spruce. 10 to 20 ft.	Retinispora pisifera. 8 to 20 ft.
Austrian Pine. 6 to 20 ft.	Retinispora plumosa aurea. 8 to 20 ft.
White Pine. 6 to 20 ft.	Retinispora squarrosa. 9 to 15 ft.
Hemlock. 6 to 25 ft.	
American Arborvitæ. 7 to 15 ft.	

AZALEA HINODIGIRI. Come and see them when in bloom. We will venture to say that you have never seen anything equal to it.

Large Japan Maples

Acer polymorphum atropurpureum

Blood-leaved Japanese Maple. This is one of the most popular of all, with beautiful foliage of dark purple, lasting through most of the season and is particularly fine when its foliage is fully expanded in early spring. We have trees running from 6 to 10 ft.

A photo of one of our several Evergreen fields, consisting of Austrian, Scotch and White Pine, running from 4 to 20 ft. in height. Many of these Pines are as broad as they are high, perfect specimens. The photo shows principally White Pines. These trees can be dug with large balls.

We have some very large specimen Austrian Pines, so compact and thick in growth that you cannot see through them, something that is seldom found anywhere; also White of the same quality and size.

The above cut shows some of our Koster Blue Spruce; can furnish trees 10 to 18 ft. high

Standard or Tree Dogwood

This is a beautiful tree for avenues or walks; the tops can be trimmed into a ball shape. These Standard Dogwoods have very nice stems about 4 to 5 ft. high and some of them have much larger stems and are higher. We have specimens 9 to 10 ft. high, 2½-3 in. diameter of stem.

Dogwood

Two thousand Specimen White-flowering Dogwoods to offer. We think we are safe in saying that they are the best in this country and parties who have looked over the block have pronounced them to be the best they have ever seen.

Lucky Boy

The New Everbearing Strawberry

It is the largest and most productive and of as fine flavor as any of the Everbearing Strawberries. Undoubtedly the ideal berry for both private and commercial use. It produces a heavy yield from early spring until late fall. Red through and through.

Large Shrubs

Running 5 to 6 ft., 6 to 8 ft. and 8 to 10 ft. high and 3 to 6 ft. through.

Those desiring to save three to eight years in the results of their planting would do well to plant these large shrubs instead of using smaller stock. Write us for list of varieties we have to offer.

THIS shows method of balling and burlapping our Evergreens ready for shipment. The trees on truck are 12 to 14 ft. high and weigh about 1000 lbs. each.

Old-Fashioned Flowers

There's a joy in having hardy perennials or old-fashioned flowers in your garden that can be viewed from the veranda, cut for bouquets in the house or that you may stroll among. There is not a time when some perennial is not in bloom; it's a succession that commences in March with Moss or Mountain Pink and ends in November with Chrysanthemums, while in between are Hardy Pinks, Iris, Pæonies, Hemerocallis, Phlox, and a thousand others.

By planting our stock early you may enjoy these flowers next summer. The plants we offer are large enough to make such results possible. The collection is varied enough to meet all needs. Our catalogue lists varieties and describes them.

Dahlias

The Dahlia flower is one of the coming flowers of the day, when you are obliged to pay for some of the newer varieties from \$25.00 to \$50.00 each. We will have a fine collection of Dahlias for the coming spring as we intend to make this one of our specialties. Prices on application.

Remember we have the largest stock of large Evergreens in this country. Come and see them.

A field of Herbaceous Pæonies

Tropical Fruits

Something to eat

We are distributors of choice Grape Fruit and Alligator Pears or Avocadoes from a grove at Guanajay, Cuba, in which our Mr. Runyan is greatly interested.

Our Grape Fruit is pronounced by all who have used it to be far superior to anything they have ever used. It is much sweeter and of a fine flavor. We guarantee every fruit in the box to be good, any that does not prove to be satisfactory may be deducted from the bill or money refunded. The crates contain 36, 46, 54, 64, 80 and 96 fruit. All are the same price with the exception of the 36.

He is also growing the Alligator Pears, sometimes called the Avocado. If you or any of your friends are interested in either one of these fruits, we would be glad to have you drop us a postal card on receipt of this circular in order that we may enter your name on our mailing list and we will advise you when the fruit arrives.

All Kinds of Bedding Plants For Your Flower Beds

Cannas, Coleus, Geraniums, Heliotrope, Salvia and many others.

English Ivy on frames for your porch. Hydrangeas in bloom.

If desired we will have our landscape man call on you. Order early and we will reserve and ship to arrive at the proper time for planting

We will be pleased to furnish estimates on your wants, also would be glad to send a man to consult with you, by appointment.

COME AND SEE US. Elizabeth is only 14 miles from New York City.

A field of Phlox in bloom

Azalea amoena

A dwarf, bushy, evergreen plant with small, green leaves that deepen to a lustrous coppery hue in winter; attractive at all seasons. In April or May the whole plant is covered with a mass of brilliant purplish-pink flowers which hold their beauty three or four weeks. Such plants are ornaments anywhere. Especially desirable for edging walks, drives, for dwarf hedges, grouping, or bordering Rhododendron and Kalmia beds. Makes a beautiful specimen plant, as it is of dense, compact growth. We have large specimens of this beautiful plant which are 4 to 5 feet through and the same in height.

Krystal Gas

Krystal Gas, the enemy of the Peach Tree Borer, goes to the root of the trouble and kills the borer. One or two applications will destroy all worms in the soil. Put up in one and five pound tins.

For Spring Delivery Only

Pot-Grown Roses

Of Recent Introduction

List of varieties and prices on application

Pachysandra terminalis growing at base of Oak tree, where it is so dry and shady that grass would not grow. Its evergreen foliage is attractive both winter and summer. It is fine for edging Evergreen plantings.
